Culture based enterprises provide expression and meaning to every aspect of our daily lives. Culture underpins and overlays every part of our existence.

Peter Mousaferiadis has had an extensive career as a conductor, composer, creative director and today is considered a thought leader of culture. He has established a group of enterprises around arts and culture in Australia which are delivered to live audiences of more than 350,000 annually and works for a range of local, state, national, international and intergovernmental clients.

"The wonderful aspect of cultural enterprises is that not only do they contribute to the economy but via market forces motivate behavioral change all with the view of making the world a better place.!"

Peter Mousaferiadis
